Major: Materials Science and Engineering | Minor: Computer Science and Engineering (ML) | 🌐 Deependra-verma | in Deependra Verma

Academic Qualifications			
Year	Degree/Certificate	Institute	CPI/%
2021 - 2025	B.Tech.	Indian Institute of Technology Kanpur	7.2/10
2020	CBSE(XII)	Emmanuel Mission School, Talwandi (RJ)	90.4%
2018	CBSE(X)	Little Flower Convent School, Powayan (UP)	95.0%

Scholastic Achievements	
• Secured AIR 671 in GATE 2025 , reflecting strong quantitative aptitude, conceptual clarity, and outstanding competitive performance.	
• Secured a top 15 position in IITK Alphathon , a competitive event organized by the WorldQuant , demonstrating quantitative excellence	
• Achieved 1st rank at the Subdistrict level in Class X , demonstrating outstanding academic performance and the excellence in studies	
• Secured 1st Division in the Akhil Bhartiya Sanskriti Gyan Pariksha Conducted by the Vidya Bharati Cultural Education Institute	

PROFESSIONAL EXPERIENCES	
Project Management Engineer (Mechanical Engineer) Dimension Consultant Pte Ltd	July'25-Present
- Directed end-to-end project lifecycles from conceptual design through client delivery, coordinating cross-functional engineering teams. - Developed and maintained Master Deliverables Register tracking hundreds of components, improving visibility, accountability, and efficiency. - Led reviews, identified bottlenecks, performed root-cause analysis, and implemented corrective strategies ensuring schedule adherence. - Prepared progress reports and delivery forecasts, enhancing stakeholder transparency, alignment, and data-driven decision-making. - Validated designs via CAD-SolidWorks-Femap workflows, securing certifications from DNV and Bureau Veritas for fabrication readiness.	

Venture Capital & Business Analyst Extern HP Tech Venture
May'24-June'24
• Analyzed venture capital funding structures & startup ecosystems to source investment opportunities aligned with strategic evaluation criteria.
• Performed analysis using correlation and regression, visualizing insights through Excel, MySQL, and Power BI dashboards for stakeholders.
• Identified high-potential startups and recommended investments , contributing to venture securing 12 million dollars funding after evaluation.

Research Consultant WorldQuant
Feb'23- Nov'23
• Researched and developed predictive mathematical models alpha to forecast global market trends with precision & reliability consistently.
• Utilized sessions, research materials, and datasets to generate, test , and refine quantitative alpha strategies effectively successfully overall.
• Combined mean-reversion and momentum techniques to build market-neutral strategies , developed 25+ models improving decisions.

Market Research Analyst Intern WorldRef Technology
Feb'23-May'23
• Analyzed market trends across Indonesia, China, & South Korea to identify product demand opportunities within emerging business sectors.
• Built company databases and evaluated import-export activities using Volza to generate actionable market intelligence insights for clients.
• Delivered data-driven recommendations secured 3 clients, strengthening market positioning, and generating revenue of 1+ crore growth.

KEY PROJECTS		
Health Monitoring Wearable with ML Mentor: Prof. Amar Behera 	July'24-Dec'24	
- Developed sensor-based device using machine learning to monitor cholesterol, temperature, and heart rate for continuous health tracking. - Researched sensing technologies, designed & printed integrated hardware, trained machine learning models to analyse physiological data. - Enabled real-time monitoring through Wi-Fi connectivity & integrated display, improving accessibility and effectiveness of personal tracking.		
Strategic Analytics Dashboard Self Project 	Nov'23-Dec'23	
- Developed analytical solution performing data extraction, analysis, and visualization using MySQL, Excel, and Power BI for insights. - Created interactive dashboards with Power BI and pivot tables to explore patterns, trends, and generate actionable business insights. - Enhanced decision making by delivering clear visualizations, improving data interpretation, & enabling faster strategic business planning.		

POSITIONS OF RESPONSIBILITY	
Head Security Udghosh'24 20th Edition: Annual Sports Festival Of IIT Kanpur	July'24-March'25
(One of the Asia's largest college sports Festival with a budget of INR 1 Crore and 100k+ footfalls)	
• Led four-tier security team of 200+ members, managing festival operations, and implemented secured entry systems for 10K+ attendees. • Coordinated and managed the execution of 17+ sports, marathon, and esports events involving over 4K+ participants and 40K+ spectators. • Initiated inclusion program supporting specially-abled participants, increasing engagement & boosting event participation by 10 percent. • Achieved 20+ percent year-over-year digital reach growth, expanding global audience to approximately 1 million viewers online worldwide.	

TECHNICAL SKILLS	
Programming Languages: C, C++, HTML, CSS, Python, SQL	Software & Libraries: Numpy, Pandas, Matplotlib, Scikit-Learn
Tools and Platform: Power BI, Canvas, MS-Excel, Unity, Volza, Github, MySQL, ZWCAD, SkyCiv, SolidWorks, Femap	

Relevant Courses			
Data Structures and Algorithm	Fundamentals of Computing	Machine Learning	Computer Graphics
Introduction to Electronics	Real Analysis and Linear Algebra	Web Development (Coursera)	Design for AR and VR

Extra-Curricular Activities	
Technical	ML: 🌐 Developed ML models for credit card fraud detection, customer churn prediction, and spam SMS classification DS: 🌐 Developed a Data Science project and created a Power BI dashboard to effectively visualize and analyze insights
Cultural	Hall Parade: Lead the parade on theme Covid in the Galaxy'23 , an interhall competition showcasing creativity and resilience Fresher'21: Participated in the Freshers Dance Showcase administrative by IITK Dance Club with a team of 20+ students.
Social	Save Soil: Contributed to the session of Youth and Truth Movement by the Sadhguru with 1 million+ reach and 5k+ footfalls
